

MAJOR ACHIVEMENTS OF NPCIL IN AUGUST 2020

1. Narora Atomic Power Station (NAPS) Unit-2 completed 731 days of safe continuous operation on August 25, 2020, thus it achieved a milestone of continuous operation for two years. The unit is still continuing to operate. So far, continuous operation for more than two years and for more than a year has been achieved 4 times and 34 times respectively, by various reactors operated by NPCIL.
2. Commissioning & load testing of two number of Main Boiler Feed Pumps is completed in KAPP-3.
3. Secondary cycle system piping open & closed loop flushing is completed successfully in KAPP-3.
4. Installation of all Freeze Jacket Assemblies for Horizontal Flux Unit is completed in RAPP-7.
5. Concreting of Turbo Generator (TG) deck slab in turbine building is completed in KKNPP-3.
6. Testing of all additional piles in GHAVP-1&2 completed.
7. Generation by all units of NPCIL was 3591 MUs during the month.
8. Fourteen Reactors registered 100% Availability Factor during the month.
