

### **KGS-1 sets new benchmark in continuous operation**

Unit-1 of Kaiga Generating Station (KGS 1 - 220 MW) in operation since May 13, 2016, surpassed the earlier world record of 940 days continuous operation held by Heysham-2 Unit-8 of the United Kingdom on December 10, 2018. The unit has completed 962 days of continuous operation till 31-12-2018, registering higher than highest continuous operation record world over. During its continuous run of 962 days, the unit generated about 5 billion Units of electricity at a Plant Load Factor of about 99.3%. The unit was shutdown at around 2300 hrs on December 31,2018 to take up inspections and maintenance activities. It will be restarted after carrying out various maintenance activities, inspections and regulatory clearances.
