Nuclear Energy Awareness Programme

PM SHRI KENDRIYA VIDYALAY, KOLIWADA, MUMBAI

22 April 2025

Atom : A Source for Sustainable Energy

Uday Kashelkar
Senior Executive Engineer
NPCIL

Under Nuclear Power Corporation's public awareness programme A lecture on the topic “Nuclear energy : A Sustainable Energy Source, was organized at P M Shri Kendriya Vidyalaya, Koliwada, Mumbai on 22 April 2025 . This programme was conducted in two batches.

During Two batches of lectures, students were given information about the Indian nuclear program and associated aspects such as sustainability, clean energy sources, national and global energy scenario, advantages and challenges of nuclear energy, radiation, safety and performance profile of nuclear power including myths and facts about nuclear power were highlighted. After the lecture, the discussion was held which mainly addressed misconceptions and myths about nuclear energy, by providing actual facts. students participated with great enthusiasm.

In total about 100 students and faculty members participated. This was highly appreciated by the senior faculty members, students and seniors.

परमाणु ऊर्जा “स्वच्छ है सुरक्षित है”
Nuclear Energy is “Clean and Safe”
